

Created for a Purpose
is so excited that you are interested in offering CFAP to your community!

What do the children in your church believe about God? About themselves? About their purpose? About their role? About others?
Are the young girls in your church hungry for something other than what the world offers them?

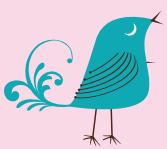

Created for a Purpose began because a group of mothers wanted to make a difference! Art projects, cooking, sewing, pottery and other creative arts along with solid biblical teaching make this program unique—and unlike any Vacation Bible School or camp curriculum.

God has created each of us as a unique masterpiece. This program is designed to meet rising 3rd through 8th grade girls where they are! They will learn that they are a unique masterpiece created for God. They will learn that God is a creative God who has made everyone with different talents and skills to be used for His glory and His purposes. They will walk away with tangible reminders that they are perfectly and wonderfully made by our Lord Jesus Christ.
